DETAILED ACTION

1. This Office action is responsive to the request for reconsideration received January 30, 2006. Claims 1-9 and 12-15 are pending.

2. Claims 1-9 and 12-15 are again rejected under 35 U.S.C. 102(e) as being anticipated by Toguchi et al. (US 6,565,993).

Response to Arguments

3. Applicant's arguments filed January 30, 2006 have been fully considered but they are not persuasive.

Applicant argues the examiner has not discussed impurities in the rejection. The claims as presently written do not require that impurities be present. While the claims do use the word "contains", the lower limit of the claimed range for impurities is zero.

Applicant further states applicant has solved a problem in the art by controlling the maximum amount of particular impurities in the organic compound layer. This argument is not considered persuasive because Toguchi does not contain the particular impurities recited in the claims.

The arguments have not distinguished the present claims over the prior art. Accordingly, the rejection over Toguchi is maintained.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
